

Quantum Systems in Extreme Conditions

Monday, 23 September 2019

Monday Afternoon (14:30 - 18:00)

time	[id] title	presenter
14:30	[7] KEYNOTE TALK Decoding the Path Integral: Resurgent Asymptotics and Extreme Quantum Field Theory	DUNNE, Gerald
15:30	[8] Searches for new physics with precision spectroscopy of highly charged ions	BERENGUT, Julian
16:30	[5] Prescaling and far-from-equilibrium hydrodynamics in the quark-gluon plasma	MAZELIAUSKAS, Aleksas
17:00	[10] Universal dynamics in shock-cooled Bose-Einstein Condensates	Dr ERNE, Sebastian
17:30	[11] Observation of universal dynamics in a spinor Bose gas far from equilibrium	PRÜFER, Maximilian
