

# Quantum Systems in Extreme Conditions

## Tuesday, 24 September 2019

### Tuesday Morning (09:00 - 12:30)

time	[id] title	presenter
09:00	[12] KEYNOTE TALK Perturbative unitarization in QCD: features, consequences and universality to cold-atoms and gravity	VENUGOPALAN, Raju
10:00	[13] Dynamical bottomonium-suppression (and recombination) in AA collisions	GOSSIAUX, Pol
11:00	[14] Hyperfine splitting in Li- and B-like highly-charged ions	KOSHELEVA, Valeriia
11:30	[15] A superconducting radio-frequency trap for high-precision frequency metrology of highly charged ions	STARK, Julian
12:00	[16] The ALPHATRAP g-factor experiment	Mr EGL, Alexander
