

Quantum Systems in Extreme Conditions

Wednesday, 25 September 2019

Wednesday Morning (09:00 - 12:30)

time	[id] title	presenter
09:00	[22] KEYNOTE TALK Quenched and driven homogeneous Bose gases	HADZIBABIC, Zoran
10:00	[23] Fermions in two dimensions: from few to many - Marvin Holten and Nicolo Defenu	HOLTEN, Marvin Dr DEFENU, Nicolo
11:00	[24] Entanglement and thermal behaviour in pp and PbPb collisions	PAJARES, Carlos
11:30	[25] Particle production from expanding QCD strings and its quantum simulation	Dr FLÖRCHINGER, Stefan
12:00	[26] From spin chains to real time thermal field theory using tensor networks	SVENSSON, Victor
